SPRING SAFETY TIPS

Although we all look forward to the arrival of spring, it brings along its own challenges for driving. Spring showers bring more rain, but they also bring flooding and slippery roads. Check your weather forecast for the day, during heavy rains, or any rain, leave more space and go easy on your braking.

Along with rain, spring brings with it a potential for hail, take the same approach during hail.

Along with the weather, spring brings with it POTHOLEs. Be aware of your road conditions and drive accordingly, avoiding potholes minimizes damage to equipment and freight, potholes make for an uncomfortable driving experience. If you're sleeping in your truck, the days may be warm, but temps may fall at night. Keep some winter equipment in your truck.

This goes for personal vehicles as well.
