Onfreight Logistics - Onsort Material Management

Future site of our US operations located in Erlanger, KY. Construction has begun this month and will continue into spring/summer hoping to be complete by early fall.

LETTER FROM THE PRESIDENT

Onfreight is a proud partner of Trucks For Change and we want to recognize an amazing milestone that was accomplished. In 2023 Trucks for Change moved a total of 1 MILLION POUNDS of food to 41 food banks across Canada over the course of only 8 months. Since its inception in 2011, T4C, has moved a total of 26 million pounds of freight including donated food, clothing, mobility aids, books and a wide range of other essentials to families and communities in need across Canada. Big congratulations to T4C and all its partners.

This month has so many great things, a day for love, a day for family, and an extra day of the month! We hope you lean in to those things and have a great February.

With thanks,
-Steve

WHAT'S HAPPENING

- Happy Valentine's Day on Wednesday, February 14th.
- Family Day - Monday, February 19th.
- It's a leap year! We will have a 29th day of February this year which only happens every 4 years. Use that extra day for something good.

High visibility Safety vests

Truck driving and Material handling are dangerous jobs but wearing high visibility safety vests can make a significant difference in workplace injuries and deaths. Transporting cargo on an active worksite, material handling in a busy warehouse, driving a truck and trailer in a yard, and maintenance staff working on equipment can all be hazardous to people walking in the same area as heavy equipment such as trucks, trailers, and lift trucks. Back up beepers, lights, and horns are all good safety precautions for pedestrian traffic to be made aware of such hazards, but high visibility of pedestrians to the workers driving these types of equipment is very important. When all company employees are wearing high visibility vests or clothing, this promotes a safe, unified front for safety. Please wear your safety vests if you are sharing space with heavy equipment and traffic. If you do not have a vest available to you, please inquire with management.

February 2024

SAFETY TIP OF THE MONTH

**Jim Pereira-
Asset/Fleet Safety Manager**

Remember, you are a professional driver, drive as such. Your family and friends are counting on you!

EMPLOYEE SPOTLIGHT

MARK OLESEVICH

OPERATION SUPERVISOR

I have worked in the automotive industry for 27 years. I worked at Auto haulaway and then Allied Systems until Allied closed its operation in Windsor. I started working at Onsort through a temp agency and was hired on full time on June 22 2015. I enjoy a variety of sports especially hockey as my father was part of the Detroit Red Wing's organization for 30 years until his untimely passing. He had the honor of being inducted into the hockey hall of fame under the trainers and equipment manager section. He was also just recently inducted into his home town's wall of fame in Port Colborne Ontario. My mother is a retired school teacher after 35 years and still lives in Windsor. My sister is married with two children and has just recently became a grand mother for the first time. She is still working and getting ready for the summer Olympics in Paris as she is the senior production manager for the CBC Olympic coverage this will be her fifth Olympics in this position. This is just a brief summary of me and my family in closing i would just like to thank both Steve and Kellie for the opportunity to work for them. It has been a very enjoyable and amazing experience and I look forward to the future as both Onsort and Onfreight continue to grow
