## SAFETY TIP OF THE MONTH

We are now entering fall, although the temperatures are easy to handle and the changing leaf colors are beautiful, we still have safety concerns. The days are getting shorter so be prepared for night driving, make sure all of your lights are in working order, the sunrises and sunsets are much brighter and may cause glare on your windshield, make sure they are clean and you have plenty of washer fluid. Beware of leaves on the road, they can be as slick as raining conditions. Fall is harvesting season, so if you are on county roads, be aware of farm equipment such as tractors and combines. Also be aware of wildlife!! Deer are more active in the fall as it is their mating season, don't ignore deer crossing signs, keep a look out.

Remember, you are a professional driver, drive as such. Your family and friends are counting on you!
